between the German and English country have latterly become something more than strained, and both the Emperor and Frince Blamarck are furious against country, which will doubtless before hold citizens deploring the blundering the Kaiser. I shall be surprised if the coror's visit to Rome does not lead to a ness between this country and Italy. Peror William does not disguise his hosy to England, and particularly towards English relatives, and I hear he did not cond with any cordiality to the Austrian seror's offer to bring about a reconciliation ween him and the Frince of Wales. The dial reception given to the Emperor by the lans could hardly be taken as a persorfal poliment to himself, as they know nothing ut him. It was a political demonstration has France and in favor of the triple allies, which is designed to keep France in

and Italy will cost not less than \$200,000. The amount which has been given away by him to the servants of the severeigns whom he visits is something fabulous, and his presents of various kinds cost a frightful sum. The Emperor took with him from Berlin, eighty diamond rings, one hundred and fifty silver stars, fifty scarf-pins, all richly jewelled, thirty diamond bracelets, six splendid presentation swords, thirty large photographs of himself with the Empress and their children, all in gold frames; thirty gold watches with chains, one hundred eigar-cases with the Imperial arms and monogram in gold and thirty stars in diamonds of the orders of the Black and Red Eagle.

EMPEROR PREDERICK'S DIARY. The diary of the late Emperor Frederick comprises thirty-two thick quarto volumes, all with locks. The Emperor desired that part of this diary should be published at a suitable period, and appointed the Empress Victoria as his literary executrix, and left her his whole correspondence and papers. Nothing could have been more awkward for the Empress than Prof. Geffoken's amazing indiscretion, as there was a regular and formal eretjon, as there was a regular and formal derstanding between her and Emperor illiam (that is Prince Bismarck) that no part of the diary should appear for several years to come, and that great care be exer-cised in selecting extracts for publication.

The appointment of housekeeper in Windson The appointment of housekeeper in Windsor Castle, which has become vacant through the death of Mrs. Henderson, is one of the best things in the Queen's gift, for there is not only an adequate salary, but the housekeeper has excellent apartments in the castle, valuable perquisites and numerous privilegess When royal personages from abroad visit the Queen at Windsor a handsome present to the housekeeper is a matter of course. Emperor Nichelas of Russia gave the housekeeper £1,000, and Emperor Napoleon a couple of splendid diamond bracelets.

I hear that the marriage of Prince Alexander of Battenberg, and Princess Victoria, of Prussia, will probably take place within the next few weeks in the private chapel of Windsor Castle, of course, without any state ceremony.

By Telegraph to the Poers-Duraton.

New Young, Getober 17.—Brewmasters are among the nardest working fellows on the face of the sarth and when they take an co-casional vacation they manage to have the highest kind of Jinks. Their second annual convention is a success. One of the secrets of this success is that they don't try to do too much work in one day. The delegates sit around and connume beer leisurely and cheerfully, varying the pleasant excitement with pligrimages to the bar on one side of Terrace Garden. All this not only prevents undus haste in the transaction of business but makes the convention something to look back to with joy. One hundred and fifty members of the Master Brewers' Association sat in long rows of black and high-backed chairs in the garden yesterdry when President Louis Friech, Superintendent of the Schoenhofen Brewery of Chicago, called them to order. He talked to the brewmasters in German and congratulated them on the growth of their organization, which started a year ago with hinely members. He advised that the convention consider the question of continuing the pass-book system for brewery employes. This system has long been a bone of contention between the bosess and the brewenty labor unions. The unions want the pass-book system for brewery labor unions. Road's Indebtedness. CHICAGO, Ill., October 17.—The executive committees of the various divisions of the Western Freight Association held a meeting yesterday to arrange for the future conduct of the affairs of the Colorada, Utah and Pacific the affairs of the Colorada, Usah and Pacific coast business, which at a previous meeting was piaced in joint charge of Chairmen Midgeley and Faithorn. It was deemed necessary to define the duties of the two chairmen to avoid a conflict of authority. It was agreed that the Colorado, Utah agreed that the Colorado, Utah and Pacific coast traffic via Kansas City and Southwestern Missouri River points, should come under the charge of Chairman Midgeley, while that going via Omaha and Council Bluffs should be taken care of by Chairman Faithorn. There was also a discussion regarding salaries. It is understood that the \$2,000 per annum drawn by Mr. Midgeley for administering the affairs of the Colorado, Utah and Pacific coast associations should be cut off, and that he should simply receive his salary as Chairman of the Southwestern division. The salary of Chairman Faithorn is to be slightly advanced on account of the additional duties imposed on him.

The Santa Fe's Indebtedness.

Bostow, Mass., October 17.—The Journal says: "We learn from an excellent authority the full measure of the Archison, Topeks & Santa Fe Railroad's financial necessities, and this is \$10,000,000. This will take up the floating debt and also meet the indebtedness for new equipment now in course of construction. To meet this new burden a private canvass of the larger stockholders is going on in order to ascertain the amounts that these stockholders will take in a proposed second mortage."

By Telegraph to the Post-Disparcie.

Pittsburg, Pa., October 17.—Congressman W. L. Soott's recent revelation in Congress of Andrew Carnegie's immense profits as the result of high tariff, has brought out an interesting story. It appears that Scott's figures were nearly correct and the Pittsburg millionaire's managers were puzzled to know how the figures leaked out. Finally they suspected Capt. Harry C. Teeter, a Democrat, who was a clerk in the office at Braddock, where Carnegie's big steel rail plant, known as the Edgar Thompson works, is situated. Teeter and Manager W. E. Jones are both active members of the G. A. R., the latter being a State officer. Jones was loth to discharge Teeter, so he instinated to the latter's brother that it would be well for him to secure another job. Shortly afterward Teeter secured a position in the Labor Bureau at Washington.

Capt. Jones, in an interview this morning with your correspondent, claimed that some important items of expanse, which are not recorded in the books at Braddock, but in the Pittsburg office, are omitted from Scott's estimate of Carnegie's profits. Jones made the important admission that it was he who furnished Congressman Randali with statistics for his last speech on the steel rail industry.

Soon after breakfast his door was thrown open to the multitude and thousands availed themselves of the opportunity to take him by the hand. Besides the Judge, prominent visitors and citizens in carriages, the procession included veteran soldiers, railroad men, visiting clubs, Fort Wayne Democratic organizations, citizens on foos, hunters and shooting clubs, butchers, floats and wagons. The procession formed at noon, and after marching through the streets, which were lined with people, went to the Hamilton fields in the southern part of the city, where three speaking stands had been erected for the occasion.

Instead of dying out, as had been generally predicted, the boom in West Granize continued with even greater force than has characterized the movements of that stock during the past three days. The market opened at 35% bid, but rose at once to 35, at which 300 shares soid. A very strong demand at once manifeated itself and bidding rose to 36%, brokers yelling at the top of their voices and pushing each other rudely aside in their eagerness to buy or sell. Over 5,000 shares changed hands before there was any sign of a pause, after which the stock was freely offered at 36%, with bids of 35. These latter were readily accepted, and 3,000 shares were transferred. These sales caused a revival of higher figures, 1,300 shares were transferred. These sales caused a revival of higher figures, 1,500 shares bringing 36%. Another decline to 35 ensued, 1,500 shares bringing the day. From this point the stock oscillated between 35 and 36%, 600 shares selling at the latter figure, and 400 at the formerathe market closing at 35 asked. John H. Blessing, who is credited with knowing more of the cause of the boom than any one else, was easerly questioned, but beyond a bars attement that he was about, gave no information. The street is still in the dark as to whether the sudden rise is due to private information announcing an unexpected strike or whether it is simply due to manipulation.

were disposed of.

The following report was received from the Black Oak mine: "No. I stope back of No. I level carries the same quality of ore as heretofore. The ledge will average for 30 feet in length about two feet is width. This stope is getting upward toward the surface very fast. No. 3 stope back of No. I level has nothing new to note. Lower stope at bottom of No. 3 drift is in fine condition. In the hanging wall portion of the stope there is a ledge, average width 3 feet, and so fist as stoped shows one mass of suphurets. Between this ledge and footwall ledge there is a horse of granite, which is also thickly impregnated with suphurets and quartz; lving next to the foot wall there is a vein 14 inches wide of good quality, which in all makes the vein about 8 feet wide. South shaft now down 45 feet below No. 2 level. The vein in this shaft is still stratified, but rich in spots, carrying sulphurets, both iron and lead. Our progress in sinking is slow, but as rapid as the character of rock will allow. The brospect for keeping the mill supplied with ore is very satisfactory, and we do not anticipate any delay on that account before level No. 8 is oppend." The stock was offered at 27%, 26% being bid for 1,000-share lots.

Reports to the effect that a private letter had been received from the San Pedro, giving a most favorable account of the property, were rife on the street and were in a measure confirmed by a strong but quiet demand for the stocks, nearly two thousand shares selling at 1245.

Meeting of the Late Chicago Street Car

Chicago, Ill., October 17.—Three street-cars manned by imported men and closely following one another were stopped at North Halstead street and North avenue by a mob early last evening. A barricade had been made, stones were hurled and the imported men received a rather rough handling. On a fourth ear were union men, and this was dragged around the obstructing cars and sent on its journey. The strike is far from being estited.

The dissatisfied North Side conductors and drivers held a general meeting this morning. The principal business before it for discassion was the fact that over two hundred of the old employes were yesterday refused the privilege of returning to their former positions and taking out cars. A committee was appointed to ascertain how many of the old men were at work and how many idle. A latter was prepared, addressed to Mayor Boldenweck of Lakeview, taking him, in conjunction with three members of the Common Council of Lakeview, to act as a committee to wait upon Mr. Yerkes with the insention of asking him that the old drivers and conductors be reinstated. A special committee was also appointed to prepare a complete history of the striker, to secure the short-hand report of the conference between Mr. Ierkes and the strikers, and report to a meeting to be called by the Executive Committee. This meeting, if the committee is prompt, will be held tonight. The voice of the men as they left the hall this morning was in favor of striking again. Before the meeting a report had apread among the men to the effect that the company had brought 200 new men to the city yesterday. This created great excitement and for a time it was thought that another strike would be ordered at the meeting. The men decided, however, to remain at work. The suparintendent of the company said no new men had been employed since the agreement was signed. CHICAGO, Ill., October 17 .- Three street-car

CASUALTIES. NEWBURG, N. Y., October 17.—When the Vest Shore train, which left Weehawken at 6:15 last evening, reached a point in the West Point tunnel where the roof was being re Point tunnel where the roof was being repaired, a large mass of rooks and earth came down on the baggage and express cars, crushing them and suddenly stopping the train. Nobody was injured. Only one man was in the baggage-car at the time. The damage to the tunnel is great and it will be fully a week before it can be used. The West Shore will use the Eric tracks in the meantime.

The ends of the first two cars, which were filled with baggage and express matter, were crushed sud flattened out like agg-shells, and the tunnel was filled with the debris. The express messenger had just got up from the shair and walked toward the forward end of the car when the crash came, and the rear end of the car was cut off behind him as cleanly as with a knife. The passen ers groped their way out of the tunnel and were carried to Cornwall by boat at midnight. The tunnel runs under the parade-ground of the United States Military Academy, which in 130 feet above. NEW YORK, October 16.—A little girl narrowly escaped death on the Third Avenue Elevated Road Saturday afternoon, through

den jerk with which the train started made a very wide space between the platforms of the two cars and although the side passing way was guarded by three loosely hanzing chains, the space was too wide for her to step across and with a shrirk she fell between the cars to the track. Fortunately she fell flat upon the ties between the rails, and the forward trucks by aimost a miracle passed over without crushing her. Just then an up-town train came into the station. On board of it was J. A. Knorr, an importer of photographic materials of No. 51 Franklin street, occupying a seat in the center of the car. He saw the child fall to the track, and throwing up the window, leaped out in time to grasp and draw her out before the car trucks could run over her.

THE POLICEMAN'S REVOLVER.

Wounded at the Relay Depot.

Charles Anderson, a section hand employed on the Chicago, Burlington & Quincy Railway, was shot last evening by Policeman John Stack near the Relay Depot in East St. Louis. Anderson was a druggist, who, on account of intemperate habits, was reduced to working with the navvies on the railroad. He boarded at the Green Tree Hotel in East St. Louis. Last evening his room mate, John Sanders, missed from their room some new shirts and other clothing. Anderson was suspected and a search made for him. He was found near the Relay Depot. Stack, the policeman, was summoned and Anderson, who were one of the stolen shirts, was arrested. He submitted at first, but when the policeman was off his guard Anderson ran away. The policeman pursued and fired several shots at the trigitive. One bullet entered Anderson's back on the right side below the shoulder blade, penetrating the right lung. Physicians were called to attend the prisoner as soon as he could be taken to the station. They pronounced the wound fatal.

dications That the "Thunderer" Will Be Badly Defeated—Cardinal Howard's In-santy—A Novel Point Raised by Glad-stone—The Ville de Calais Disaster—Prof. n's Case-Foreign Notes.

LONDON, October 17.—The coming meeting of the Parnell Commission already throws a shadow large and portentious enough to mo-nopolize political attention. The particulars of the charges made by the London Times, filed yesterday, show a general change of front on the part of the prosecutor. After years of virulent charges against Mr. Parnell ad daring him to meet them, this assailant o all things Irish now turns around and tries to throwing out a big drag-net in the shape of vague allegations against the whole Irish party. No less than sixty-five Irish members have filed affidavits of answer, and if the Times succeeds in fastening upon a single one of this number a solitary suspicious action, letter or connection, it hopes thus to escape complete failure. But it is the general belief complete failure. But it is the general belief that Justice Hannen will not permit this kind of subterfuge, but hold the Times to prove that its alleged Parnell letters are genuine. It is said that very conclusive evidence that they are forgeries has been secured in America. The assertion is even made that the forger is well known, and the expectation is now quite general that the Times will be so badly beaten as to seriously damage its party in Parliament, particularly since it is settled that the Attorney-General is really to appear in its behalf.

POOR CARDINAL HOWARD. Cardinal Howard was conveyed yesterday rom the private mad-house in St. Johns Wood, where he has been confined, to a setter asylum for the winter, situated near Brighton. The cardinal was seized with mad-ness last December. He has had frequent lucid intervals in which his grief and despair have been highly pathetic. He is now crazy all the while and the eerebral affection is hopeless. He still looks the picture of health, save for a wild glance in the eyes. His mania almost steadily is that he is a captain in the Horse and his language now is much better adapted etta which he wears back on the side of his head like an officer's forage-cap.

Lord Mount Temple, who died yesterday, took no part in politics in recent years, but his name is inseparably associated with the education controversies. The statement that the English Premier had instructed the British Minister at Washington to protest against the resultation measure as an act of hostility to a friendly government, and also as a breach of the modus vivendl agreement which was made with Mr. Joseph Chamberiain as Representative of the British Government at Washington, is not true. Then the office was left open to was arrested Saturday night by Policemen Collins and Wilson at Sixth and Wal-nut streets, and Ernest Redman arrested delayed by the rush. When 9 o'clock arrived there was not a man within sight of the City Hail who wanted to register. Quite a crowd was standing around but every man wore a satisfied air knowing that one vote at least was assured. The number of names handled yesterday was 1,516; of these 1,056 were new registrations and 460 transfers from one street to another. The fact that all the names are in does not mean that the work of the Recorder is fluished. It has really just begun. There was a good deal of vigor in the real estate market late yesterday afternoon. Several large negotiations aggregating over \$100.000 were practically closed, and other transactions of nearly equal magnitude were resumed to-day with an earnestness on the part of the principals interested which shows that these sales, too, will be perfected in a few days. None of these matters have progressed sufficiently far to warrant a publication of the facts, but it may be said that the prospective deals are, each of them, of a very important nature, and that if either of them is consummated, of which there is now but little doubt, improvements will follow on some business corners which will be of great benefit to the city.

loods Cannot be Held by the Surveyor of the Port Under a Carrier's Lien When the Consignes Furnishes' Security for Charges—End of the Case of Wyman vs.

States DistrictCourt dis-posed of a sult of some interest, that of Charles H. Wyman & Co. et al., vs. B. D. Lancaster, Surveyor of the Port of St. Louis, and A. J. Whitney. The Sur-veyor and Whitney,

a good and sufficient bond to cover the amount in dispute, that the duty had been paid and that the surveyor was not justified in holding the goods on the refasal of the C. & A. Ry. to accept the money and bond tendered, THE SUIT WAS FOR POSSESSION Of the goods and 500 damages. Frending the trial of the case an order was made under which the goods were delivered to the gone signee, a bond being given to eccurs charges, etc. When the case was heard Judge Theyer rendered an opinion November 30, 187, holding that it was necessary before the consignee could obtain possession of the goods after a lien had been filed with the Surveyor for reight charges by the carrier, that the consignee tender to the carrier a sufficient bond for the charges, and on his refusal to accept such bond, present proof of the tender and the bond to the Collector, who would then have authority to release the goods, restaining the bond for the security of the carrier. But as it had not been shown to the court, by the plaintiff in his patition, that he had compiled with all these conditions an order could not be entered for possession of the goods. Leave was given to amend the petition and the case was tried again after the amendment. Surveyor Laneaster denied in an affidavit that a bond of any kind had ever been tendered him by the plaintiffs for the use of the Chicago & Alton Railway.

Legislative Tickets Regardless of Former Understandings—No Mistake in the Third

HE Central Comm of the Union Labor party will meet to-night at No. 11 South Broadway. The ob ject of the meeting is to consider the threatened perfidy of the Re-

she suggestion of some prominent Republicans and subsequently placed Mr. Nathan Frank's name on the tloket. While making up these tlokets the Union Labor party was given to understand that in return its Legislative nominess in the Second, Third and Fourth Districts would receive Republican endorsements. The First Representative District has a Republican majority of pearly one thousand. No ciaims for indorsements were made here, though the Union Labor men expected to receive Republican assistance in all the district. The committee which is now preparing to make the legislative nominations shows some disposition to disregard the understanding with the Union-Labor party and to put up its even tickets. In the Fitth District, the Republicans sontident of their own strength, have already put up the Republican nominees who carried the district two years ago. The Union-Labor people are now conferring with the Democrate of the First District. With the vote cast for the Union-Labor pound the Straight Republican ticket.

The meeting to night will be held to take sotion on the Legislative nominations. A member of the Union Labor Committee to-day said: "We do not want the fat offices nor do we want to advance from our own party men not as well qualified as men from the older parties. Understanding that we would receive the assistance of the Republicans in electing our legislative ticket if we indorsed the Republican of the Republicans in electing our legislative ticket if we indorsed the Republican dity and Congressional nominees, we made up our ticket and now will not be bampooried, as it seems to be planned by some af the Republicans. We are going to elect Union Labor pone to the Legislature if possible."

The Tangier Trouble.

WASHINGTON, D. C., October II.—Regarding the cable report that the Sultan of Morocco is about to send an embassy to the United States to complain among other things of the conduct of Reed Lewis, the American Consul General at Tangier, the State Department officials say no official information has been received, but it is regarded as very probably true. The conduct of Consul General Lewis, to which exception is taken, is believed to have been his management of the recent controversy over the arrest and imprisonment of an American protege.

> FIFTIETH CONGRESS. The Senate,

The Senate,

Washington, D. C., October 17.—At the beginning of the morning business the Republican side of the Chamber was represented by eight Senators and the Democratic side by ten. On motion of Mr. Morgan the Committee on Foreign Relations was authorized to sit during the recess in Washington or New York in the investigation of the La Abra claim against Mexico. The special committee on the methods of business in the departments was also continued, Mr. Cockrell, its chairman, stating that it would involve no expense.

The House bill granting to the Aberdeen, Bismarck & Northwestern Railway right of way across a portion of the Sioux Reservation in Dakota Territory was then passed.

Mr. George said he had given notice that he would call up the House bill for "printing Government securities in the highest style of art," dispensing with steam presses (and ask to have it passed). He said, however, he had a conference this morning with the Legislative Committee of the Knights of Labor, who were pressing the bill, and the result of that conference was that, owing to the thinness of the Senate, and to the fact that further testimony was desired by opponents of the bill, he would not make the motion of which he had given notice. Mr. George also asked and obtained leave of absence for the remainder of the session after to-morrow.

Mr. Hampton suggesting in an undertone that the same request should be made for all the Senators.

with the Bible. For this he was removed. The Charleston Presbytery last week passed a resolution—two to one—prohibiting any one within the church writing upon or criticising the decision of the General Assembly at Baltimore, which condemned Dr. Woodrow's teachings. The State Synod, now in annual session at Greenwood, has adopted resolutions condemning the acts of the Charleston Presbytery as unconstitutional, irregular and unwise. The action of that Presbytery, says the Synod, "imposes a restraint upon the right of freedom in the expression of opinion which is unwarranted by law." The Synod directs the Charleston Presbytery to convene at once and correct its secular proceedings. These resolutions were

titute Condition of the People of Bamsey County, Dakota.

MINNEAPOLIS, Minn., October 17 .- M. J rpmann, of this city, who has been investing the condition of the farmers in Ram sev County, Dak., who were reported to be starving to death, returned last night. He says there are seventy families who are absolutely destitute of food and fuel and some

solutely destitute of food and fuel and something must be done, and immediately. The real condition of the people is beyond description. Men, women and children are in rage and they have not a cent of money in the world. Their crops were totally destroyed, and their land, stock and farm implements are mortgaged. Absolute distress prevailed everywhere. A minister was living in one room with his wife and two small children. One of the latter was wrapped up in a crib in order to keep warm, and the other was blue and shivering with cold and emeriated with hunger. There was no fuel with the exception of a little dry manure, which is all that any of the families have to burn, and the only thing they had to eat was a dry crust of bread. Mr. Horpmann says the fross which came in August destroyed all of the wheat that there was, as well as all vegetables, even those which are as hardy as turnips.

A MORPHINE VICTIM. Frankle Baymond Arrested for Stealin Mrs. Mills' Diamonds.

By Telegraph to the Post-Disparch.

Boston, Mass., October 17.—Miss Frankie
Raymond, who stole Mrs. Mills' diamonds in New York and disappeared, was located yes-terday in this city. She had been taken sick, and it was this which led to her identification.

and it was this which led to her identification. In giving an account of herself she says that after leaving Mrs. Mills' house she took a room in a New York hotel, and the same day pawned one of the three rings she stole in a Bowery pawn shop. She also exchanged all her good clothes and a 47 pair of shoes for articles less fashionable and took the 3 o'clock train last fasturday for Boston. She was taken sick on the journey and was cared for by the passengers, some of whom questioned her as to her identify and got evasive replies which suggested a mystery. She was watched, and when arrested in front of the Crawford House, was in the act of changing her personal appearance. She confessed her identity. She admitted taking the three rings, but said Mrs. Mills had always encouraged her to make a good appearance. Only one ring and 10 cents is money were found among her effects. Dr. Emerson examined her and says she is a victim of the morphine habit.

HE TERRIFIC BATTLE BETWEEN COLONEL AND TATTERS AT KILL VONKULL, N. Y.

By Telegraph to the Post-DEPATCH.

NEW YORE, October 17.—Colonel, a brown and white spotted full-blooded bull-dog, belonging in Elizabethport, and Tattors, a brindled bull-dog, hailing from Port Richmond, Staten Island, fought for one hour and twenty-three minutes Monday night, in the cabin of a barge anchored in the Kill won Kull, near the Port Johnson coal-wharves. The dogs were pitted for a purse of \$250. A well-known Elizabeth sportsman handled Colonel, while Tatters was cared for by an experienced cock and dog fighter from the north shore of Staten Island. The battle began half an hour before midnight, the spectators comprising some four score sporting men from Elizabeth-port, Bergen Point and Staten Island. Each animal was put down at \$5 pounds weight. At the outset Colonel exhibited much strategy and forced the fighting. Tatters, however, did the best execution and during the first half hour he severely crippled his antagonist. Up to this time the betting had been heavily

and forced the fighting. Tatters, however, did the best execution and during the first half hour he severely crippled his antagonist. Up to this time the betting had been heavily in favor of the Colonei, who had heratofore participated in several hard-fought encounters, but his backers lost heart and tried to hedge. Later when Tatters, which is a young dog, and has never before been pitted, turned tail and ran half a dozen times around the pit with Colonel in pursuit, the backers of the latter became jubilant and renewed their wagers at greater odds. The Islanders accented every bet offered. Tatters soon recovered his courage and turned savagely upon his assailant. A desperate conflict, from which Colonel emerged worsted, ensued. Both brutes were covered with blood flowing from numerons wounds. A portion of Tatters' sail was missing, and one of Colonel's forepaws hung by a shred of flesh. Tatters followed up his advantage and soon had Colonel whipped. Neither dog will be in consistion for another battle for many weeks to come. About \$2,000 changed hands on the result.

### THE GIANTS "GOT THERE."

The first game of the world's championship ries, played at the Polo Grounds yesterday on, and fully detailed in a Post-Dis PATCH extra, resulted in a victory for the New Yorks. The game was a pitcher's battle from the beginning to the end and neither of the twirlers had any advantage over the other. The Giants only made two hits off King and twirlers had any advantage over the other. The Glants only made two hits off King and the Browns got three off Keefe, but Keefe struck out nine of our boys and King made only three League champions fan the air. The New Yorks made the first run in the second inning. Connor hit for a base, and Ward knocked a slow one to Latham and arrived at first before the ball. King then made a wild pitch, and both Connor and Ward advanced a second the ball. King then made a wild pitch, and both Connor and Ward advanced a sace. Blattery then knocked a high fly to center, which Lyons caught, and by a splendid throw put out Ward at third, Connor, housever, scoring. They made their second man in the third inning. Tiernan was given a base on balls. He started for second, and Boyle threw the ball low. It got past Robinson and also went through Lyons legs. Before it had been thrown in Tiernan had crossed the plate.

The Browns made their only run in the third, Latham gotto first on balls. Robinson struck out and on the last strike Latham started down second and by Ewing's bad throw reached third. O'Neil brought him in with a beautiful base hit to center. The Browns made 3 hits and the Giants 2, and 4 errors to their opponents' 3. Some of the scorers gave the Browns 5 errors, counting Jack Boyle 2. One of the errors attributed to Boyle, however, was unquestionably a wild pitch of King's. The batteries to-day will be Welch and Ewing and Chamberlain and Milligan.

THE BECEPTION TO THE GIANTS.

Theater Sunday Night. The New York Press has the following account of the reception to the Giants Sunday night: Last night was a great night for the New York Base Ball Club. They stood ranged about in a half circle on the stage of the Star and State Senator Canton say such beautiful things about them that their ears will burn for days to come. They heard mighty cheers for

They wore dress suits and blushes. The evening clothes did not show their muscles quite so plainly as their base ball suits do, but they made them look handsome enough. The blushes flitered through the sun brown and made them look bashful. When Mr. fummings called Buck Ewing the "king of catchers and captains," Buck looked down at his varnished shoes, and when the aneaker

Hillard recited "Christmas Day in the Workhonse."
"Pretty Laura Moore sang the Jewel Song trom "Faust" beautifully. Digby Bell came out faiteringly. He was loudly applauded. He sang "Two Lovely Black Eyes." A reference to the three black eyes. Baby Anson had received on his last visit to this city brought out an approving shout.

Laura Joyce Bell rendered "The Clang of the Wooden Shoon." Charile Reed sang his new song about the Italian. Whether her song contained say reference to base ball or not a good many people coulds" tell. If not, it was about the only one of the evening that didn't.

CHAMPIONS 1889. N. Y. B. C.

CINCINNATI, O., October 17 .- The Cincinnati Club's bluff about the park resulted successfully, but yesterday the Superior Court took another turn in that ancient Mallory suit against John Hauck, and on application of Messrs. John Holmes and Gustav Wald, representing B. Mallory and Alex. Frazer, cred-Messrs. John Holmes and Gustav waid, representing B. Mallory and Alex. Frazer, creditors of George Herancourt, Judge Peok appointed Rufus B. Smith trustee for John Hauck's holding of stock in the Cincinnati Base Bail Club. Under the decree of the Superior Court at the general term Mr. Smith is vested with all the powers and authority of the original pledges of the stock. Under the decree that was handed up this morning Mr. Hauck is required to give an accounting of any profits he has derived from the stock. The lien of Mr. Hauck on the stock goes to the extent of his full claim, \$74,000 with interest, against Mr. Herancourt and the Haucks have sold out their interest in the club to the Stern Association, and Attorney Pares for the former at once gave notice of an appeal to the Supreme Court, and in accordance an order was issued staying Trustee Smith from taking any action under the decree for thirty days. Attorney Kramer, who is also a director of the Cincinnati Club, makes the statement that the Haucks sold out their entire holdings of the stock for \$6,000, just \$1,000 more than the credit given ex-President George M. Herancourt by Hauck when he took the franchise as part payment to secure \$74,000 debt. The other side laugh at this story and say it will have to be proven in court.

President Stern, who is now in New York, will try and secure either Dooms or Baker of the Newarks while away. Gus Schmelz left yesterday morning for Des Moines to secure Bug Holliday.

A GREAT DEAL.

Full and Accurate Particulars of a Deal Which Will Agitate the Base Ball World. By Telegraph to the Post-Disparch.

NEW YORK, October 17.—The main topic of

onversation about the Grand Central Hotel -day was not, as might have been thought, e games for the world's championship, but of formation under its roof. This deal will be the biggest and most sweeping will be the biggest and most sweeping since the national game was put upon its present basis. It will be the sale of the Detroit players to Philadelphia, Boston, Pittsburg and Cleveland, and the transferrence of the Detroit players to Philadelphia Boston, Pittsburg and Cleveland, and the transferrence of the Detroit players to the latter city, Stearns of Detroit is here and has already sold Thompson, the fielder, to Philadelphia for \$5,000. Billings of Boston and Stearns have been in consultation for the past two days and before two more have passed by the Boston Club will have bought three or four of the famous Wolverines. The Pittsburg Clith will get its abare and it is proposed to give Cleveland the double-cross, as it were, in the transaction. Tom Lottus is here and is very indignant over the matter. Cleveland thought to have the pick of the Detroiters, but it now finds that it will in the League have to retain a position analogous to that which it held in the Association expects to fill Cleveland's place with Washington. The Browns and the friends of the Browns are satisfied with yesterday's game and the New York crowd is now convinced that its Glants will not have a walk-over. The weather here is threatening and it is not improbable that some of the games will have to be postponed on account of rain. President York each play out the schedule, however, if it took three weeks to do it.

CHICAGO, Ill., October 17 .- W. E. Hutchinson, a Des Moines pitcher, is expected to reach this city Saturday morning and sign the and made them look bashful. When Mr. fummings called Buck Ewing the "thing of casblers and captains," Buck looked down at his varnished shoes, and when the speaker stared at Mike Tiernan and praised him that most bankward young gentieman hid as much of his anatomy as he could behind Sprinter Elimer Foster. But they all liked it, and another thing that they will like quite as well will be the presentation of something over \$3,000 to them.

This is the proceeds of the benefit gotten up for them by, Manager Burnham of the Star Theater and their stanch admirers, Duby Beil and De Wolf Hopper. Nearly every New Yorker who loves a game of base ball was there. The seating capacity of the house is about 1,700. But all the seats were sold before the doors were opened, and people who came at 8 o'clock wore told by the ticket seller, as he looked up from a wad of bills he was counting over, that there were 'mo seats and no standing-room.'

Master of Ceremonies Goeffrey Hawley came out on the stage when the curtain rose and said that a few changes in the programme had of necessity been made, and then those who had so kindly given their services to aid the Glants in buying winter clothes began to give their specialities. Dookstader's quartette sang a beautifully pathetic minstrel song. Bob Hillard recited "Christmas Day in the Workhous."

Ewing's great ability as a thrower was not demonstrated to any alarming extent yesterday.

Bushong has found a pitching phenomenon named McMahon and has presented him to President Byrne.

Little McCarthy made two grand catches yesterday and installed himself a great favorite with the crowd.

The Indianapelis Club has been defeated twenty-eight times this season by the elender margin of one run.

The Chicagos lead the country in home runs, they having made seventy-four. New York is next with fitty-one.

Several times a base hit would have won the game for the Browns, but the batters were not equal to the occasion.

It costs the Western Association about \$40.000 for base ball this year. There was that amount of expenses beyond receipts.

The Bt. Louis Reds defeated the Collinsville Reds by a score of 7 to 4. The feature of the game was the batting of Ed Heer of the St. Louis Reds.

The Boston reserve list is: Clarkson, Sowders, Radbourn, Madden, Conway, Kelly, Sommers, Morrill, Quinn, Nash, Wise, Ray, Johnson and Brown.

The Browns' strong hold is base running. Buck Ewing's strong hold is trowing to basea. It will be an interesting sight to watch the effect of the conflict in the world's series.—

Anson says the work on the Australian tour will keep the men in continuous good condition, and promises to keep an eye on the men after they return, and up to the opening of the contract season. He thinks professional ball players should be under contract for twelve montas and subject to the discipline of the capitain. "Look at John L. Sullivan," he said recently, "when he trained for a fight, see into what splendid condition he put himself. But after the fight he went to the other extreme. Eall players are in fighting condition for six months in the year; then they deteriorate for six. I don't pretend to say that they need violent or much outdoor exercise; but they should put in at least three hours daily, during the winter months, in a handball court. I tried that myself last winter, and you will notice that I fielded my position better this year than I have in a long time."

and a telegram from John Barrett inform Arthur Lully that the champion was in co parative good health. Last night at 6 o'clock the train from the Grand Central Depot carried out the men who will represent Kilrain and the "Unknown" and sign articles for them to-day. They are John Keenan and Frank Stevenson, for Kilrain, and W. H. Germaine, Treasurer of the Illustrated News, and P. J. Donohoe for the unknown. To-day the parties will meet in a secluded spot in Canada to sign the agreement that will bind the two principals to fight for the champion-ship of the world and \$10,000. Where the battle-ground will be is still a problem. But from information from the inside the fight will not take place within four months nor in the United States. It may be in Canada or it may be in Mexico. Although the Kilrain people to-day will demand the name of the "Unknown" and that the battle take place within three months, it may be set down that neither demand will be agreed to. the train from the Grand Central Depot car

The Baltimore Races

The fall meeting of the Maryland Jocke

champion of America, and W.C. Bryan, cham pion of Iowa, took place yesterday afternoon at Sportsman's Park. The match consisted of two dashes of 100 yards and a single dash of 800 yards, the winner of any two of the events to be given the stakes, amounting to \$500 a side and the entire gate receipts. Johnson won both of the 100-yard dashes in 9 4-5, being closely pushed by Bryan. The 300 yards race was most exciting. Bryan winning by one foot in \$34-5. Bryan offers to run any man in America from 150 to \$00 yards, and a match between him and Collins will probably between.

that he does not want to make the match. Daly has extended the time for posting the money until next Saturday night.

The following foot-ball matches will be played this week: Princeton vs. Butgers College, at Princeton, to-day, and Princeton vs. University of Pennsylvania, on Saturday, at Philadeliphia. In the Foot-ball Union—Staten Island vs. Crescent, at Livingston; New York vs. Crange, at New York, on Saturday. The teams of the Polytechnic High School of Brooklyn and St. Austin's School, at the St. Austin's grounds, Livingston, S. I., and the Alerts vs. the Brooklyn Foot-ball Club, at the Crescent Athletic Club grounds, Brooklyn, also on Saturday.

The rentlemen connected with the Driving Club of New York Tuesday introduced a novelty in horse racing. It was a series of experimental trots on the dash system, and was calculated to furnish the admirers of trotting an opportunity to see this sport and turn their dollars rapidly. The races occurred at the Fleetwood Park race track and were well strended. The running at Clifton, N. J., attracted all of the bookmakers except one, and he did not do a very lively business. The thing seems as yet pretty uncertain, but it seems sure to become popular. In addition to the entrance money the driving club adds 3100 to go to the horse winning first place in the respective dashes.

W. B. Johnston of Iowa, widely known among Western furfmen, has been secured by George V. Hankins as manager of the Chicago stable. Mr. Johnston is an excellent horseman. He, it will be remembered, brought Terra Cotta East isst June to win the Suburban, and kept that great colt on edge until the close of the Coney Island spring meeting. Mr. Johnston was at the Latonia meeting when engaged by Mr. Hankins the other day. Just before setting out for New York he purchased Galen from Gray & Co. for \$10,000. If the colt retains his form next year he will carry the Chicago colora to victory in a number of rich events. McLaughlin remains with the stable, but George Covington's term of service will expire
